

FOR IMMEDIATE RELEASE:

USOL Energy opened its doors this year and plan to be a major supplier of Photovoltaic Modules in Mexico, USA and Abroad.

USOL Energy offers exemplary Customer service by using its Cooperative visionary collective comprised of both Mexican and American PV experts. Installation Companies, Distributors, Engineering Firms and Allied Industry can expect full support in structuring their systems, logistics when ordering PV Modules. Based in both Mexico and the United States, USOL Energy offers a unique approach to collaborative Renewable Energy Industry projects.

Established in 2013, Mexican Energy Reform, also added to the Constitution, which goals are: Improve Family Economy by lowering the cost of energy, job creation and reducing carbon footprint. Our goal is to be a major influence on reaching these goals for Mexico and the Planet. In the USA similar Energy Reforms, make it possible for immediate trade over the border for the benefit of all! Together we can make a real difference.

At USOL Energy, we care about what you need and want. We are dedicated to making effective and high quality solar panels, as well as, making logistic problems a thing of the past. Highly trained Executives and Consultants offer skilled service for all of your Power needs, Grid Tie, Off Grid and Portable! Often at the Manufacturer level, you don't have knowledgeable service staff who are also trained in complete PV Systems. We can not only provide excellent Modules, but also have a large network of Consultants, Engineers and Installers that can service every aspect of your needs. They also provide free PV Education in their locations.

Recently, USOL Energy added new Marketing Campaigns which include ECOTAINMENT: Entertainment using portable renewable energy to lower carbon footprint. USOL Energy is participating in Media Campaigns, both Audio and Visual, which enhance the image of both our location and Renewable Energy industry. Working in Conjunction with local Eco Non Profits, we are creating projects that help the community greatly.

Welcome to a new era, where we work together globally to create Clean Energy. We are proud to represent our Country in a way that benefits all Mankind. For More Information: tcarter@usolenenergy.com
